

[CONFIGURABLE ROOF RACK SYSTEM]

Abstract of Disclosure

A roof rack system 10 is provided, including at least one storage surface 20 movable between a first position 22 and a second position 24. The first position 22 is defined by the at least one storage surface 20 being generally coincident with a roof 14 of a vehicle 12. The second position 24 is defined by the at least one storage surface 20 being generally coincident with a side 16 of a vehicle 12.
